### **NOTES:**

Data Suppression: To protect the confidentiality of individuals, outcomes for small groups of students are suppressed. For Grades 4 and 8, the table for All Students should be used for school and district comparisons, as data suppression has the least impact. For HS Cohort results, GenEd results should be used for comparisons, since it is least impacted by the suppression rules. Please refer to the notes in the template documents for more information. For

HS Cohort Math Results: These counts are of cohort students who have ever scored at these levels on any Regents Mathematics exam. Sequential Math I is the most commonly taken Regents Mathematics Examination. Please refer to the template documents for more description of the cohort and the requirements for graduation.
